

Your home's energy savings, put to better use.

- Save hundreds or more every year,
for what matters to you.

Making it easy for you to save energy at home

Taking control of your energy use will save you money and make your home more comfortable year-round. Here's a great way to do it—with support from the New York State Energy Research and Development Authority (NYSERDA).

► Six simple steps to make your energy efficiency upgrades happen

- 1 Get assessed.** Have a comprehensive home energy assessment performed by a BPI-accredited Home Performance with ENERGY STAR (HPwES) contractor. In addition to measuring your home's energy performance, your Home Performance contractor will perform important health and safety tests to ensure major combustion appliances (furnace, boiler, water heater, stove) are operating properly. For most New Yorkers, the home assessment is free.
Find a participating Home Performance contractor in your area by calling 1-866-NYSERDA or visiting nyserdera.ny.gov/home-performance.
- 2 Make a plan.** Your contractor will review the results of the comprehensive home energy assessment with you, then work with you to select cost-effective energy upgrades that match your budget and goals.
- 3 Paying for the work.** For those that want to take advantage of low interest financing, HPwES offers two options through Green Jobs – Green NY.* Both loan options offer up to \$13,000 per household, up to \$25,000 if the project meets higher cost-effectiveness standards, and repayment periods of 5, 10, or 15 years.
Option 1: An On-Bill Recovery Loan provides homeowners the convenience of paying for energy improvements on their utility bill. If the home is sold, the unpaid balance of the loan can be transferred to the new owners.
- Option 2:** An Unsecured Loan offers affordable interest rates, flexible terms and simple repayment options.
For more information, full eligibility requirements and instructions on how to apply, visit nyserdera.ny.gov/residential-financing or call 1-800-361-5663.
- 4 Get approved.** Receive loan status notification and return the signed loan documents.
- 5 Upgrade.** Have a participating Home Performance with ENERGY STAR contractor implement the upgrades described in your Scope of Work. NYSEDA may inspect the work to verify its quality.
- 6 Test-out—and earn incentives.** When your energy upgrades are finished, your contractor will repeat the tests conducted during the initial assessment. Upon test-out and acceptance of work you and your contractor will sign a Certificate of Completion, which is submitted to NYSEDA. Your lender will then make payment to your contractor. You can also enjoy other incentives like 10 percent cash back on eligible upgrades.

Opportunity's knocking!

Call 1-866-NYSERDA or visit nyserdera.ny.gov/home-performance

NYSERDA's Home Performance with ENERGY STAR program offers homeowners a comprehensive, whole-house approach to improving energy efficiency and home comfort while saving money. Energy assessments and upgrades are conducted by a participating Home Performance contractor accredited by the Building Performance Institute (BPI). Income-qualified homeowners are eligible for additional incentives to make energy improvements.

Participate in Home Performance with ENERGY STAR and take advantage of funding for comprehensive home energy assessments and low-cost financing for energy upgrades through Green Jobs – Green NY. Green Jobs – Green NY is a statewide effort to strengthen our communities through energy efficiency. It enables New Yorkers to make a significant difference in our homes, businesses and neighborhoods—making them more comfortable, more sustainable, and more economically sound. Green Jobs – Green NY is administered by NYSEDA and made available by the Green Jobs – Green New York Act of 2009.

*The loan repayment period cannot exceed the useful life of the financed measures. The minimum financing amount is \$3,000 for Home Performance with ENERGY STAR and \$1,500 for customers who qualify for Assisted Home Performance with ENERGY STAR. Interest rates are subject to change. NYSEDA has the right to access a customer's credit report, FICO score, and utility payment history, and perform similar credit-related activities for the purpose of evaluating an applicant's creditworthiness.
